Product Overview

Professional Elastic Grinding Solution

This 5-inch elastic grinding disc is engineered for high-performance grinding and finishing tasks. Designed for compatibility with standard electric power tools, it offers a robust solution for surface preparation. The disc maintains structural integrity at high speeds, ensuring consistent results in demanding industrial applications.

Technical Specifications

Maximum Speed

12200 RPM
Max Rotation Speed

80 M/S
Peripheral Speed

Disc Dimensions

125 x 22 mm

Tool Compatibility

Electric Angle Grinders, Handheld Finishing Tools
