

# Electric and Manual Citrus Juicer

This juicer combines electric and manual operation for efficient and customizable juice extraction. Its compact size and durable, food-grade materials make it ideal for small kitchens and easy to clean.

## Product Overview

### Versatile Citrus Juicing Solution

This compact citrus juicer offers a dual-function design, combining electric power with manual control for efficient juice extraction. Designed for convenience, it features a 1L capacity and a detachable bowl that simplifies the cleaning process. The transparent cover allows users to monitor the extraction process, making it an ideal addition to any kitchen environment.

## Technical Specifications

Power Output	12 W
Juice Container Capacity	1 L

## Features & Design

### Key Features

- Detachable juice bowl
- Press and rotate cover mechanism
- Transparent cover for monitoring
- Easy-to-clean components

Operation Type	Electric, Manual
