

Electric Angle Grinder

This angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor and durable construction.

Product Overview

Professional Grade Performance

This electric angle grinder is engineered for demanding industrial and professional applications. Built with high-density materials and precision components, it delivers superior power and durability compared to standard models. Its robust design ensures high efficiency in cutting, grinding, and polishing tasks while maintaining strong overload resistance.

Technical Specifications

Actual Power

1100 W

Rated Power

Key Performance Attributes

High Torque, Overload Resistant, High Efficiency

Construction & Materials

Material Composition

- High-density aluminum housing
- Imported professional-grade bearings
- High-density precision gears
- Specialized carbon brushes
