Product Overview

Versatile Electric Angle Grinder

This high-performance electric angle grinder is designed for efficient grinding, cutting, and polishing tasks in professional metalworking and construction environments. It features a robust motor housed in a compact frame to ensure reliability and ease of handling during heavy-duty operations. The integrated safety guard and ergonomic handle provide enhanced user protection and comfort, making it an ideal choice for demanding industrial applications.

Performance

Power Performance

2200 W

Power Input

4100 RPM

No-Load Speed

Technical Details

Operating Voltage	220V
Frequency	50 Hz
Disc Diameter	355 mm

Build Quality

Core Components

- Copper rotor windings
- Commutator
- Laminated core
- Integrated cooling fan

Compliance

Application Areas

Metalworking, Construction, Industrial, DIY
