

Electric Angle Grinder for Cutting and Polishing

This angle grinder is a versatile power tool used for grinding, cutting, and polishing. It utilizes a high-speed rotating abrasive disc that can be changed for different applications.

Overview

Professional Electric Angle Grinder

This professional-grade electric angle grinder is engineered for versatile cutting, grinding, and polishing applications. Featuring a robust 750W motor and a high no-load speed of 11,000 r/min, it provides consistent performance for demanding tasks. Designed with user safety and ergonomics in mind, the unit includes a protective disc guard, a side handle for better control, and is compatible with standard 115mm discs.

Technical Specifications

Power Output

750 W

Power

11000 r/min

No-load Speed

Voltage Compatibility	110V, 220V-240V
Frequency	50/60Hz
Max Disc Diameter	115 mm
Spindle Thread	M10

Accessories

Included Accessories

- Side handle
- Disc guard
- Wrench
- Carbon brush set
