

# Electric Angle Grinder for Cutting and Polishing

This angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor and ergonomic design for demanding applications.

## Product Overview

### High-Performance Industrial Angle Grinder

This 2400W electric angle grinder is engineered for heavy-duty cutting, grinding, and polishing tasks across metalworking and construction environments. Designed for efficiency and durability, it features a robust construction and an ergonomic build to handle demanding applications. The tool includes integrated safety features like a protective guard and a spindle lock mechanism for reliable, secure operation.

## Technical Specifications

Model Number	8230G
Power Output	2400 W
Spindle Size	M14

## Performance Metrics

### Rotational Speed

**8000 RPM**

Max Speed

**6500 RPM**

Rated Speed

### Supported Disc Diameters

- 180
- 230

## Features

### Safety Features

Safety Guard • Spindle Lock

### Primary Applications

Cutting, Grinding, Polishing, Metalworking, Construction
