Product Overview

Professional Electric Angle Grinder

This high-performance electric angle grinder is engineered for versatile metalworking tasks, including cutting, polishing, sanding, and rust removal. Built with a high-strength nylon casing for drop resistance and a powerful motor featuring high-grade enameled wire, it offers exceptional durability and overload capacity. Designed with user safety and comfort in mind, it includes a soft-start function, an anti-self-locking switch, and an adjustable handle for precise control.

Key Features

Design Advantages

- High-strength nylon casing for drop resistance
- Optimized air duct design for efficient heat dissipation
- D-type safety handle with plastic grip
- Auxiliary handle with plastic grip
- Handle rotates 90 degrees left and right

Safety & Ergonomics

Soft Start, Anti-self-locking Switch, Explosion-proof Guard, Spindle Lock, Adjustable Handle

Applications

Suitable Applications

Metal Polishing • Sanding • Rust Removal • Burr Removal • Metal Cutting
