

Electric Angle Grinder for Material Removal

This angle grinder is a versatile power tool designed for grinding, cutting, and polishing various materials. It features a high-performance motor for efficient material removal and a durable construction for long-lasting use.

Product Overview

Professional Material Removal Tool

This electric angle grinder is a versatile power tool engineered for demanding grinding, cutting, and polishing tasks. It features a high-performance motor designed for efficient material removal and robust construction to ensure long-lasting durability in professional environments. Equipped with a side handle for enhanced control and essential safety features like a wheel guard and spindle lock, it is an ideal solution for metalworking and construction applications.

Technical Specifications

Key Features

- High-performance motor
- Durable construction
- Side handle for control
- Safety wheel guard
- Spindle lock for easy accessory changes

Disc Diameter Options

125mm, 150mm

Applications

Primary Applications

Metalworking • Construction • DIY Projects • Material Removal
