

Electric Angle Grinder for Material Removal

This electric angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor for efficient material removal and durable construction.

Overview

High-Performance Material Removal

This electric angle grinder is engineered for demanding tasks, including cutting, grinding, and polishing across a variety of materials. It features a robust motor designed for efficient material removal and is built with durable components to ensure long-lasting performance in professional environments. The tool prioritizes operator safety and comfort, incorporating a protective safety guard and an ergonomic handle design.

Key Features

Target Users

Professional • DIY

Suitable Applications

Cutting, Grinding, Polishing

Design & Safety

Safety Equipment

- Integrated safety guard
- Ergonomic handle design

Construction

Durable construction for long-lasting performance
