

Electric Angle Grinder for Material Removal

This angle grinder is a versatile power tool designed for grinding, cutting, and polishing. It features a robust motor for high-speed operation and efficient material removal.

Overview

High-Performance Material Removal

The 8100FC Electric Angle Grinder is a versatile power tool engineered for demanding grinding, cutting, and polishing tasks. Equipped with a robust 800W motor, it delivers consistent high-speed performance at 11,000 RPM to ensure efficient material removal and smooth finishing. Designed with user ergonomics in mind, it features a comfortable grip and adjustable side handle for enhanced control, making it an ideal choice for metalworking and construction professionals.

Technical Specifications

Power Output

800 W

Motor Power

11000 RPM

No-Load Speed

Compatible Disc Diameter

- 100
- 115

Model Number

8100FC

Spindle Size

M10, M14

Features

Safety & Control

Spindle Lock • Protective Guard • Adjustable Side Handle • Ergonomic Grip

Primary Applications

- Metalworking
- Construction
- Material Removal
- Cutting
- Polishing
