

Electric Angle Grinder for Metalworking

This angle grinder is a power tool used for cutting, grinding, and polishing. It features a powerful motor and durable construction for demanding applications.

Product Overview

High-Performance Angle Grinder

This 1500W electric angle grinder is engineered for demanding metalworking, construction, and heavy-duty grinding applications. It features a robust, durable construction designed to withstand rigorous use while maintaining ergonomic comfort for the operator. With a high-speed output of 8500RPM and a 150mm disc capacity, this tool provides the force and precision required for professional cutting, grinding, and polishing tasks.
