

Electric Bike Battery and Scooter

These are batteries and scooter components designed for electric bikes. The products provide reliable power and efficient transportation for urban and recreational use.

Product Overview

High-Performance Energy Storage

This high-performance sealed lead-acid battery is engineered specifically for electric bicycles and scooters. It offers a reliable power solution designed to support urban commuting and recreational transportation needs. With a focus on consistent energy delivery and safety, this unit ensures extended range and efficient performance for your electric mobility applications.

Technical Specifications

Model Number	NP12-12
Rated Voltage	12 V
Capacity	12 Ah
Cycle Use Voltage	14.4-15.0V
Standby Use Voltage	13.5-13.8V
Initial Current	3.6 A

Safety and Handling

Safety Warnings

- Do not short battery terminals
- Do not incinerate
- Contains acid
- Recyclable

Battery Type

Sealed Lead-Acid • Constant Voltage Charge
