Overview

Efficient Electric Cargo Solution

This electric cargo tricycle is engineered for reliable, emission-free transportation in urban and commercial environments. Featuring a robust frame and a spacious cargo bed, it provides a practical solution for hauling goods while maintaining operational efficiency. With an integrated lighting system and responsive braking, this vehicle ensures safety and ease of use for daily delivery or logistics tasks.

Performance & Power

Motor Power

1000 W

Motor Output

Performance Metrics

- Max Speed: 25 km/h
- Range per charge: 45-50 km

Battery System

Battery Configuration

Attribute	Detail
Battery Type	Lead-acid
Capacity Options	72V/20Ah, 72V/60Ah
Charging Time	6-8 hours

Technical Specifications

Physical Dimensions	3030 x 1170 x 1195 mm
Vehicle Weight	261 kg

Components

Braking System Front: Drum • Rear: Drum	
Tire Specifications	Front: 2.75-14 / Rear: 4.0-12 (Tubeless)

Compliance

Certifications	EEC
