

# Electric Cargo Tricycle

This electric cargo tricycle is a versatile solution for hauling goods, featuring a robust frame and spacious cargo bed. The efficient electric motor ensures quiet and emission-free operation.

## ADDITIONAL IMAGES

## Overview

### Versatile Electric Cargo Solution

This electric cargo tricycle is engineered for efficient, eco-friendly goods transportation in both urban and industrial environments. Featuring a robust frame and a powerful 1000W motor, it offers reliable performance for heavy-duty tasks with minimal maintenance. The vehicle is equipped with advanced safety features, including EEC-certified lighting and linkage braking, ensuring operational confidence for professional use.

## Performance

### Power & Performance

<b>1000 W</b> Rated Power	<b>2300 W</b> Peak Power	<b>26 km/h</b> Max Speed	<b>50 km</b> Range
------------------------------	-----------------------------	-----------------------------	-----------------------

### Battery & Charging

60V/45Ah maintenance-free battery; 8-10 hours charging time

## Dimensions & Capacity

### Size Specifications

Dimension	Value
Overall Size	2895 x 1050 x 1320 mm
Cargo Box Size	1400 x 1050 x 280 mm
Min. Ground Clearance	150 mm
Min. Turning Radius	6500 mm

### Weight & Load

<b>280 kg</b> Curb Weight	<b>480 kg</b> Rated Gross Weight	<b>580 kg</b> Max. Designed Gross Weight
------------------------------	-------------------------------------	---

## Technical Details

### Mechanical & Drivetrain

- Motor: DC/square wave/magnetic steel height 50H
- Transmitting Mode: Gear transmitted
- Controller: 18 tubes controller (Max Current 45A)
- Rear Axle: Taper/ratio high speed 8.22:1, low speed 22:1
- Suspension: Duplex hydraulic front, Leaf spring rear

### Safety & Certification

EEC Certified Lights, Linkage Braking System, Mechanical Drum Brakes, Off-seat Alarm, Dust-protected Shock Absorbers

## Logistics

### Shipping Information

40HQ Container Packing: 60 sets (CKD)
