Overview

Robust Electric Cargo Solution

This electric cargo tricycle is engineered for reliable, emission-free transport in both urban and rural environments. Featuring a covered cabin for driver comfort and a high-capacity cargo bed, it combines utility with ease of operation. With a powerful 1000W motor and reinforced frame construction, it offers a practical solution for logistics and delivery needs.

Performance & Powertrain

Motor & Controller

60 V

Voltage

1000 W

Power

Controller

24-tube controller

Chassis & Suspension

Suspension

- Front: ± 40 Outer spring hydraulic shock absorption
- Rear: 6 leaf spring

Braking System

Position	Specification
Front	130 drum brake
Rear	160 drum brake

Tires & Rims

3.50-12 tyre with iron rim

Comfort & Features

Visibility & Weather

- Integrated central rearview mirror
- Switching wiper
- Boneless wiper arm

Cabin Amenities

MP3 Radio, USB Charger, Reading Light, Anti-theft Alarm, Cup Holder, File Pocket
