

Electric Cargo Tricycle with Front Basket

This electric tricycle is designed for cargo transport. It features a front basket, a rear cargo bed with a seat, and a step-through frame.

Product Overview

Versatile Electric Cargo Solution

This electric cargo tricycle is engineered for efficient short-distance transport and logistics. Featuring a robust step-through frame, it provides easy access for operators while maintaining stability. The vehicle is equipped with both a front basket and a rear cargo bed, offering flexible storage options for various goods.
