

# Electric Cargo Tricycle with Front Basket

This electric tricycle is designed for transporting cargo. It features a front basket, a rear cargo bed with side rails, and a step-through frame.

## Product Overview

### Efficient Cargo Mobility

This electric tricycle is engineered for reliable, short-range cargo transport in urban and commercial environments. Featuring a robust step-through frame, it provides easy accessibility for operators while maintaining stability during heavy loads. With both front storage and a dedicated rear cargo bed, this vehicle serves as a versatile solution for local deliveries and logistics tasks.

## Technical Specifications

### Operator Comfort

- Padded seat
- Ergonomic step-through design

### Drive System

Electric Battery Power

### Core Components
