

# Electric Cargo Tricycle with Metal Cargo Bed

This electric cargo tricycle is designed for efficient and eco-friendly transportation of goods. It features a sturdy frame and a spacious cargo bed with railing.

## Overview

### Versatile Electric Cargo Solution

This electric cargo tricycle is engineered for efficient, eco-friendly goods transportation in urban environments. Featuring a robust metal cargo bed with a drop-down tailgate, it simplifies loading and unloading tasks for professional use. The vehicle combines a quiet electric motor with a reliable chain drive system and suspension, ensuring a smooth and emission-free operation.

## Technical Specifications

Drive System	Chain drive
Suspension	Front Suspension, Rear Suspension
Wheel Material	Alloy

## Design & Utility

### Cargo Bed Features

- Metal construction
- Drop-down tailgate
- Protective railing

### Safety Equipment

Front Headlight • Rearview Mirrors
