

Electric Cargo Tricycle with Rear Cargo Bed

This electric tricycle is designed for transporting cargo. It features a scooter-style front, a seat with a backrest, and a rear cargo bed.

Product Overview

Versatile Cargo Solution

This electric cargo tricycle is engineered for efficient goods transportation in urban and industrial environments. It features a robust metal construction with a stable three-wheel design, ensuring balance while carrying heavy loads. Combining a front scooter-style control interface with a spacious rear cargo bed, it offers both ease of maneuverability and reliable load-bearing capacity.
