Overview

Versatile Electric Ceramic Cooktop

This electric ceramic cooktop offers a smart and efficient solution for modern kitchens, featuring a durable glass-ceramic frosted panel and a stainless steel body. Designed for versatility, it supports a wide range of cooking methods including stewing, soup preparation, boiling, hot-pot, and stir-frying. With intelligent power management, adjustable heat levels, and a built-in timer, this unit provides precise control for all high-temperature cookware with flat bottoms.
