

# Electric Ceramic Herbal Medicine Pot

This electric ceramic herbal medicine pot is designed for brewing traditional Chinese medicine and herbal remedies. It features multiple heating settings to extract the medicinal properties of herbs through slow and controlled heating.

## Product Overview

### Traditional Decoction, Modern Convenience

This electric ceramic herbal medicine pot combines traditional decoction methods with modern automated convenience. Designed specifically for herbal remedies, it features a durable ceramic body that ensures even heat distribution for effective extraction. With intuitive controls for fast and slow decoction, plus automatic heat preservation, it simplifies the preparation of traditional Chinese medicine.

## Technical Specifications

Capacity	2.2 L
Power Rating	450 W

## Features

Heating Modes	Fast Fire, Slow Decoction, Automatic Heat Preservation
---------------	--

## Design & Build

Finish Style	Bright • Matte
Body Material	Ceramic

## Functionality

- Operational Features**
- Automatic decoction process
  - One-bowl medicine yield
  - Integrated control panel
  - Easy-pour spout design
