

Electric Chain Hoist

This electric chain hoist is designed for lifting heavy loads in industrial and construction environments. It features a robust motor, durable chain, and safety hook with a latch.

Overview

Versatile Electric Hoisting Solution

The CD1 and MD1 electric wire rope hoists are designed for compact, lightweight, and smooth operation in demanding industrial environments. These units are highly adaptable, suitable for use on overhead rails or in conjunction with single-girder, double-girder, cantilever, and gantry cranes. The MD1 model offers a dual-speed lifting capability, providing the precision control necessary for delicate adjustments where single-speed models may not suffice.

Technical Specifications

Available Models

- CD1 (Single Speed)
- MD1 (Dual Speed)

Crane Compatibility

- Overhead Rails
- Single-girder Cranes
- Double-girder Cranes
- Cantilever Cranes
- Gantry Cranes

Performance Features

Compact Design, Lightweight, Smooth Operation, Precision Control (MD1), Overload Protection
