

Electric Chainsaw for Wood Cutting and Pruning

This electric chainsaw is designed for cutting wood and pruning branches. It features a compact design and a safety switch to prevent accidental starts.

Product Overview

High-Performance Electric Chainsaw

The S2027 electric chainsaw is a robust tool designed for efficient wood cutting and pruning tasks. Featuring a 2000W motor, it delivers consistent power for demanding jobs without the maintenance requirements of gasoline engines. Its ergonomic design includes a double safety guard system and an automatic oiling mechanism to ensure both operator safety and extended chain longevity.
