

# Electric Circular Saw for Woodworking

This electric circular saw is designed for cutting wood and other materials with precision. Its high-speed rotating blade and safety features make it suitable for professional and DIY woodworking projects.

## Overview

### Professional Circular Saw

This electric circular saw is designed for precision woodworking and efficient cutting tasks. It features a high-performance motor and adjustable settings for both depth and bevel cuts, making it suitable for a wide range of professional and DIY projects. Built with safety and versatility in mind, this tool ensures consistent results for various material thicknesses.

## Technical Specifications

### Rated Power

**1250 W**  
Power

**6000 rpm**  
No-load Speed

Voltage Compatibility 110V, 220-240V

Frequency 50/60Hz

## Cutting Performance

### Cutting Capacity

Angle	Depth
45 degree	32mm
90 degree	58mm

Blade Diameter 185 mm

## Features

### Adjustable Features

- Cutting Depth
- Bevel Cutting

## Compliance & Packaging

### Certifications

CE • FCC

### Included Accessories

- 1pc Ruler
- 1pc Wrench
- 1couple Carbon Brush
- 1pc User Manual
