

# Electric Citrus Juicer Extractor

This electric citrus juicer extractor is designed for efficient and easy juicing of oranges, lemons, grapefruits, and other citrus fruits. Its compact design makes it suitable for any kitchen countertop and ideal for quickly preparing fresh juice at home.

## Product Overview

### Efficient Citrus Extraction

This electric citrus juicer extractor is engineered for the efficient processing of oranges, lemons, grapefruits, and other citrus varieties. Its automated motor operation simplifies the juicing process, making it an ideal addition for quick, fresh juice preparation. With a compact footprint and durable construction, it is designed to fit seamlessly onto any kitchen countertop while providing reliable daily performance.

## Technical Specifications

Power Source	Electric Motor
Material	Durable Plastic
Compatible Fruits	Oranges, Lemons, Grapefruits

## Features

### Key Features

- Automated electric motor operation
- Integrated juice collection container
- Convenient pouring spout
- Compact countertop design
