

Electric Citrus Juicer with Pulp Filter

This electric juicer efficiently extracts juice from citrus fruits. It includes a pulp filter, transparent container, and drip-free spout.

Product Overview

Efficient Citrus Juicing

This electric citrus juicer is designed for efficient, hassle-free juice extraction. Featuring a powerful 40W motor and an automatic start/stop function, it simplifies the process of making fresh juice. The integrated pulp filter and anti-drip spout ensure a clean, convenient experience, making it perfect for direct serving at the breakfast table.
