

Electric Citrus Juicer with Stainless Steel Filter

This electric juicer is designed for efficient extraction of fresh juice from citrus fruits. It features a brushed stainless steel housing, a stainless steel filter, and a 400ml juice container with an anti-drip spout.

Product Overview

Professional Citrus Extraction

This electric citrus juicer combines a sleek, brushed stainless steel housing with a durable stainless steel filter for efficient juice extraction. Designed for ease of use, it features a one-touch operation system and a convenient 400ml container with an anti-drip spout. All detachable components are dishwasher-safe, making it an ideal choice for maintaining hygiene and efficiency in busy environments.
