Product Overview

Versatile Electric Cutting Solution

These portable electric scissors are designed for both household and industrial applications, offering a convenient, high-efficiency cutting solution. Featuring a durable tungsten steel blade and a dual-power design, the tool supports both cordless battery operation and direct plug-in usage for continuous work. It is engineered for low noise, heat emission, and anti-fatigue, making it an ideal choice for cutting various materials ranging from delicate fabrics to thicker industrial substrates.

Technical Specifications

Output Power	35 W
Charger Voltage	100-240V
Charging Time	2 hours
Machine Weight	0.376 kg
Blade Material	Tungsten steel
Operation Modes	Cordless (Rechargeable), Corded (Plug-in)

Cutting Performance

Cutting Capacity by Material

Thickness	Materials
10mm	Underwear, cloth, textile, knitwear, felt, blanket, curtain
7mm	Five-layer cardboard, A4 paper
5mm	Leather, carpet, plastic, fiberglass, rubber

Cutting Range

10 mm

Max Cutting Depth

Accessories & Usage

Included Accessories

- Fuselage
- Cutter head A (Sharp/Fast cutting)
- Cutter head B (Blunt/Long life)
- Battery
- Power adapter
- Charging stand

Application Areas

Industry • Household
