

Electric CNC Automatic Paper Cutter

This electric CNC automatic paper cutter is designed for precision and efficiency in paper cutting tasks. It is equipped with numerical control for accurate and repeatable cuts, suitable for various paper types and sizes.

Product Overview

Professional Precision Cutting

The Electric CNC Automatic Paper Cutter is an advanced solution designed for high-precision and efficient paper processing tasks. Featuring a numerical control system, it ensures accurate and repeatable cuts across various paper types and sizes. This equipment is engineered to deliver clean, professional results for demanding commercial and industrial applications.

Technical Specifications

Model	XB-490EP
Control Type	Numerical Control (CNC)
Operation Mode	Automatic
Cutting Accuracy	High Precision, Repeatable Cuts
