

Electric Coffee Grinder with Adjustable Settings

This electric coffee grinder features adjustable settings for 4 to 12 cups. It includes an auto-off timer for safety and grind settings for fine, medium, and coarse results.

Overview

Professional Electric Coffee Grinder

This high-performance electric coffee grinder is designed for versatility and ease of use in any professional or home kitchen setting. Featuring a 170W motor and a 65g capacity chamber, it delivers consistent results whether you need a fine, medium, or coarse grind. The removable grinding chamber ensures maintenance is simple and efficient, while the adjustable cup settings allow you to grind the exact amount required for 4 to 12 cups.
