

Electric Commuter Bicycle

This electric bicycle is designed for urban commuting and recreational use. It features a step-through frame, front basket, rear rack, compact motor, battery pack, and integrated lighting system.

Overview

Urban Commuting Redefined

This electric commuter bicycle is engineered for seamless urban navigation and daily transport. Featuring a convenient step-through frame design for easy mounting, it is equipped with a versatile front basket and a rear rack for carrying essentials. Its integrated lighting system ensures visibility and safety during early morning or evening rides, making it an ideal choice for both professional commuting and recreational city cycling.
