

Electric Commuter Bicycle

This electric commuter bicycle features a high-torque motor for efficient power delivery. Its large capacity battery and lightweight frame provide a comfortable and sustainable transportation solution.

Overview

Efficient Urban Mobility

This electric commuter bicycle is engineered for efficient and sustainable urban travel. Featuring a lightweight aluminum alloy frame and a responsive 250W brushless motor, it offers a smooth and reliable riding experience for daily commutes. With integrated battery technology and a clear LCD/LED display, this e-bike provides a practical solution for navigating city environments with ease.

Performance

Motor Power

250 W

Motor Output

36 V

Voltage

Maximum Speed 32 km/h

Running Distance 30 km

Technical Specifications

Frame Material Aluminum Alloy

Battery Capacity 5.2 Ah

Wheel Size 700c

Components

Control Features

- 36V Controller
- PAS Sensor
- LCD/LED Display

Braking System Front Disc Brake, Rear Disc Brake
