

Electric Commuter Bicycle with Pedal Assist

This electric bicycle is designed for city commuting with pedal assist. It features a 28" Alloy 6061 frame, Shimano 7-speed gears, and a torque sensor.

Overview

Designed for the Urban Commuter

This 28-inch electric commuter bicycle is engineered for reliability and comfort in urban environments. Featuring a high-performance 36V mid-motor and a responsive torque sensor, it provides a smooth, intuitive pedal-assist experience. With a durable alloy frame, Shimano 7-speed internal gearing, and a comprehensive LCD display, this bike offers a practical and efficient solution for daily transportation.
