

Electric Commuter Bicycle with Step-Through Frame

This electric bicycle features a sturdy frame and a front basket. It is equipped with an electric motor and battery for assisted pedaling or full electric operation.

Product Overview

Designed for Urban Mobility

This electric commuter bicycle features a convenient step-through frame design, making it easy to mount and dismount for daily travel. Equipped with an integrated electric motor and battery system, it provides versatile assisted pedaling or full electric operation. The sturdy build includes a front basket for added utility, making it an ideal, eco-friendly solution for short to medium-distance urban commuting.
