

Electric Commuter Bike with Step-Through Frame

This electric bike is designed with a step-through frame for easy access and comfortable riding. It features a brushless motor, lithium-ion battery, front and rear lights, and disc brakes, making it suitable for urban commuting and recreational use.

Overview

Urban Commuting Redefined

This electric commuter bike features a convenient step-through frame design, making it accessible and comfortable for daily urban travel. Equipped with a reliable brushless motor and a long-lasting lithium-ion battery, it provides efficient power for both commuting and recreational riding. Enhanced with front suspension and dual disc brakes, this bike ensures a smooth and safe ride across city streets.

Technical Specifications
