

Electric Commuter Bike with Step-Through Frame

This electric bike is designed for urban commuting and recreational riding. It features a step-through frame for easy mounting and dismounting, a front basket, and a rear rack.

Overview

Urban Commuter Electric Bike

This electric commuter bike features a convenient step-through frame design, making mounting and dismounting effortless for riders of all abilities. Engineered for versatility, it includes a front basket and rear rack, providing ample storage for groceries or daily essentials. With its integrated electric motor and frame-mounted battery, this bike offers reliable pedal assistance to help you conquer hills and extend your travel range during daily commutes.
