Overview

High-Capacity Commercial Corn Steamer

This 48L electric corn steamer is engineered for high-volume commercial and domestic use, featuring a robust stainless steel construction. It offers precise temperature control ranging from 30°C to 110°C, ensuring food is kept at the ideal serving temperature. With safety features like automatic shut-off and double overheat protection, it provides a reliable and efficient solution for steaming corn and other vegetables while maintaining flavor and nutrition.

Key Performance Metrics

Key Performance Metrics

48 L

Total Capacity

2500 W

Power Rating

110 °C

Max Temperature

Technical Specifications

Model Number	AG-48
Operating Voltage	220 V
Product Dimensions	430 x 430 x 430 mm

Construction & Design

Ergonomic heat-resistant handles and high-grade stainless steel internal shelving for efficient steaming.

Professional-grade stainless steel construction with a large capacity steaming chamber and perforated basket.

Design Highlights

- See-through stainless steel combination cover
- Viewable water gauge for level monitoring
- Humanized heat-resistant handles
- Stainless steel internal shelf
- Perforated basket for even steam distribution

Material Composition

202 Stainless Steel, 304 Stainless Steel, 1mm Thickness

Steamer Basket Size

37cm Diameter x 15cm Height

Operation & Safety

Intelligent temperature control interface featuring a durable rotary button for precise heat management.

Safety Systems

Automatic Shut-off • Keep-Warm Feature • Double Overheat Protection • Heating Indicator Light • Keep-Warm Indicator Light

Temperature Control Range

30-110°C (Adjustable)

Service & Support

Included Spare Parts

- Silicone parts
- Thermostat
- Switch
- Indicator lights
- Handles

B2B Service Capabilities

- ODM Project Development
- Factory Audits
- Pre-shipment Final Inspection
- Container Loading Supervision
- Global Logistic Services
