Overview

Versatile Electric Crepe Maker

This 1500W electric crepe maker features a reversible die-casting plate design, offering both a large flat surface for traditional crepes and a multi-mold side for five small pancakes. Constructed with a durable plastic base and an elegant stainless steel decorative rim, it combines functionality with a modern aesthetic. The appliance includes adjustable temperature controls and convenient bottom storage for the power cord, making it a highly practical addition to any professional or home kitchen.
