Overview

Professional Performance in a Compact Design

This electric deep fryer is designed for efficient and reliable frying performance in compact kitchen environments. Featuring a durable stainless steel housing and a powerful 2000W immersion heating element, it ensures rapid preheating and consistent cooking results. With integrated safety features like a splatter protection lid and skidproof rubber feet, this unit is built for both convenience and stability during operation.

Technical Specifications

Power Output

2000 W
Power

Electrical Requirements 220-240V / 50Hz

Oil Capacity 1.3 L

Features

Operational Features

- See-through window for monitoring
- Adjustable temperature control
- Integrated timer
- Immersion element for fast preheating

Housing Material Stainless Steel

Safety & Stability Splatter Protection Lid, Skidproof Rubber Feet, Anti-Grease Filter
