

Electric Demolition Hammer

This heavy-duty electric demolition hammer features a robust motor and ergonomic design. It also offers variable speed control for versatile applications.

Product Overview

Professional Demolition Performance

This heavy-duty electric demolition hammer is engineered for high-intensity concrete breaking, chipping, and demolition tasks. Featuring a robust, high-performance motor paired with advanced vibration reduction technology, it ensures maximum efficiency while minimizing operator fatigue during prolonged use. With its ergonomic design, durable chuck system for secure bit retention, and variable speed control, it provides the versatility and reliability required for demanding industrial applications.

Performance Metrics

Primary Applications

- Concrete Breaking
- Chipping
- Demolition Work

Key Capabilities

Vibration Reduction, Variable Speed Control, Heavy-Duty, Ergonomic Design
