

# Electric Demolition Hammer with Carrying Case

This demolition hammer is designed for industrial applications. It features a powerful motor for efficient concrete and masonry demolition and includes a durable carrying case and a 4-meter cable.

## Overview

### Industrial-Grade Demolition Performance

This heavy-duty demolition breaker is engineered for demanding industrial applications, providing a powerful solution for concrete and masonry demolition. It features a high-performance 1700W motor and a robust HEX chuck system to ensure efficiency on professional construction and renovation sites. The tool is designed for durability and ease of transport, coming complete with a rugged carrying case and an extended 4-meter cable for maximum job site reach.

## Performance Metrics

### Key Performance Metrics

**1700 W**

Input Power

**45 J**

Impact Force

**1400 bpm**

Impact Rate

## Technical Specifications

### Chuck System

HEX System

### Operating Voltage

220-240V~50/60Hz

## Physical Characteristics

### Weight

16 kg

### Cable Length

4 m

## Packaging & Accessories

### What's in the Box

- Electric Demolition Breaker
- Heavy-duty Carrying Case (BMC)

## Application

### Best For

Industrial, Construction, Renovation, Concrete Demolition, Masonry
