

Electric Demolition Jackhammer

This heavy-duty electric demolition jackhammer is designed for breaking concrete and asphalt. It features a robust motor and ergonomic handles for comfortable operation.

Product Overview

Professional Demolition Performance

This heavy-duty electric demolition jackhammer is engineered for high-impact performance in demanding construction environments. Designed for efficiency, it excels at breaking through concrete, asphalt, and other hardened masonry materials. With a robust motor and ergonomic handling, it provides the reliability and control professional contractors require on the job site.

Key Features

Design Advantages

- Robust motor construction
- Ergonomic handle design for operator comfort
- Durable build quality for job site longevity

Best For

Concrete Breaking, Asphalt Removal, Demolition, Professional Construction
