

Electric Demolition Jackhammer

Heavy-duty electric demolition jackhammer designed for breaking concrete and asphalt. It features a powerful motor and durable construction for demanding job site conditions.

Product Overview

Professional Demolition Performance

This heavy-duty electric demolition jackhammer is engineered for rigorous job site applications, including breaking concrete, asphalt, and other hardened materials. With a robust 1500W motor, it delivers consistent impact power for demanding demolition, chipping, and breaking tasks. Designed for reliability and professional use, this tool is a proven solution for construction projects across global markets.

Technical Specifications

Input Power	1500 W
Impact Frequency	1400 bpm

Electrical Requirements

Voltage	110V • 230V
Frequency	50 / 60Hz

Market Availability

Export Markets	Middle East, Europe, North America, South America
