Product Overview

Versatile Demolition Power

This high-performance electric demolition pick is engineered for demanding construction and renovation tasks. It seamlessly transitions between hammering, hammer drilling, and chiseling functions, making it an essential tool for crushing concrete, breaking asphalt, and grooving masonry. Designed with ergonomics and durability in mind, it provides the control and power necessary for both professional job sites and intensive DIY projects.

Capabilities

Compatible Materials

- Concrete
- Brick Wall
- Stone
- Wood
- Asphalt Roads

Operational Modes

Hammering, Hammer Drilling, Chiseling

Design & Ergonomics

Key Features

Robust Motor • Adjustable Speed • Ergonomic Design • Side Handle Control • Depth Rod Included
