Product Overview

Precision Performance Tool

This high-speed electric die grinder is engineered for precision grinding, polishing, and engraving tasks across various materials including metal, wood, and plastic. Featuring a robust motor and variable speed control, it offers the versatility needed for both delicate detail work and efficient material removal. Its compact, ergonomic design ensures comfortable handling and maneuverability, making it an ideal choice for professional tool and die work, mold making, and general metalworking applications.

Technical Specifications

Power Output

450 W

Motor Power

Maximum Speed	27000 RPM
Collet Capacity	6 mm
Max Grinding Diameter	25 mm

Logistics & Compliance

Certifications

CE • GS • ETL-Listed

Packaging	10 pieces per carton
