

# Electric Diesel Fuel Pump Assembly

This electric diesel fuel pump solves the problem of insufficient motor service life in diesel applications. It enhances cold start performance for diesel engines and eliminates the need for manual exhaust, with a service life of up to 10,000 hours.

## Product Overview

### High-Performance Diesel Fuel Pump Assembly

This electric diesel fuel pump assembly is engineered for reliable fuel delivery in demanding construction machinery environments, specifically for excavators. Designed to ensure clean fuel filtration and consistent flow, this component helps maintain engine performance and longevity. It is built with robust materials to withstand the rigorous operational conditions typical of heavy-duty equipment.

## Technical Specifications

Part Number	1105010-903
Compatible Engine Brands	Xinchai, Hangcha
Component Type	Electric Diesel Fuel Pump / Fuel Filter Assembly
Primary Application	Construction Machinery / Excavators
