

Electric Divided Skillet with Glass Lid

This electric skillet features a divided cooking surface and non-stick coating. It includes a transparent glass lid and integrated handles for convenient cooking.

Product Overview

Versatile Electric Divided Skillet

This electric skillet features a uniquely divided cooking surface, allowing for simultaneous preparation of different food items without flavor transfer. Designed with a high-quality non-stick coating, it ensures effortless food release and simplified cleaning after use. The included transparent glass lid provides excellent visibility for monitoring cooking progress, while integrated handles ensure safe and convenient handling in any kitchen environment.

Design & Build

Surface Design	Divided cooking surface
Surface Coating	Non-stick
