

Electric Drain Cleaning Machine

This electric drain cleaning machine is designed to remove blockages in pipelines. It features a flexible cleaning cable and powerful motor for effective blockage removal.

Overview

Versatile Cordless Drain Cleaning Solution

This electric drain cleaning machine is designed for efficient clearing of small indoor and outdoor pipelines ranging from 20mm to 65mm. Featuring a cordless design with an 18V battery pack, it offers maximum portability for professional plumbing tasks in lavatories and other tight spaces. The unit combines a high-torque flexible shaft with an automatic feeding system to ensure clean, convenient, and effective blockage removal.

Battery Power

Technical Specifications

Applicable Pipe Diameter	∅20-65mm
Flexible Shaft Size	∅8mm * 6M
Speed Adjustment	Stepless 0-350 rpm adjustable
Rated Voltage Options	110V, 220V

Design Features

Shaft Construction

- Enhanced inner core flexible soft shafts
- Added plastic cores for improved twisting transmission
- High resistance against twisting torque and winding
- Entirely sealed structure with large metal barrels

Operational Capabilities

- Automatic device for effect feeding and backing
- Adept passage through curved pipes
- Capacious battery pack for extended use
- Ergonomic handheld design

Applications

Usage Environment

Indoor • Outdoor • Lavatories • Small Pipes
