

Electric Espresso and Cappuccino Maker

This espresso and cappuccino maker is equipped with a 15 bar high pressure pump and LED decoration. It features a detachable 1.2L transparent water tank and a durable stainless cup plate for pre-heating coffee cups.

Product Overview

Professional Espresso Experience

This electric espresso and cappuccino maker combines high-pressure performance with user-friendly controls to deliver café-quality beverages at home. Featuring a 15-bar high-pressure pump and a durable die-casting aluminum alloy boiler, it ensures consistent extraction and optimal flavor. Designed for reliability and ease of use, the machine includes safety features like overheating protection and an automatic pressure release valve, making it an ideal choice for professional-grade coffee preparation.

Technical Specifications

Pump Pressure

15 Bar

Pressure

Power Input	850 W
