

Electric Eye Massager with Acupressure and Heat

This electric eye massager relaxes the muscles around the eyes to relieve fatigue. It features simulated 3D acupressure, a 42°C warm compress, and multiple massage modes.

Product Overview

Advanced Eye Relaxation Technology

This electric eye massager is designed to alleviate eye fatigue by relaxing the muscles surrounding the eyes. Utilizing advanced simulation technology, it provides a gentle, effective massage without applying direct pressure to the eyeballs. Crafted from safe, food-grade materials, this device combines heat therapy and acupressure to deliver a professional-grade relaxation experience.

Technical Specifications

The device utilizes 22 massage balls and 42°C heat compression to effectively relieve eye fatigue.

Message Balls	22
Warm Compress Temperature	42 °C
Massage Modes	3

Features & Benefits

Key Features

- Simulated 3D acupressure
- 42°C consistent warm compress
- Non-invasive: No pressure on eyeballs
- Integrated healing music
- Long standby battery life

Material Safety	Food-grade material, Washable components
